

Hearts for Ukraine

SF Bay Area Humanitarian Aid Drive for Ukrainian People!

Working together we are helping people in Ukraine!

Hearts-For-Ukraine—in partnership with Grains of Good (a non-profit 501C3) and RM Music Festival—is a campaign to deliver emergency supplies directly to hospitals, shelters, schools, orphanages, nursing homes, refugee support centers, and the territorial defense forces of Ukraine!

We are a group of professionals, musicians, artists, and friends, who love, lived, and have family and friends in Ukraine. We were amazed and humbled by the amount of donations and support being provided through large NGOs, which are doing a great job with necessities like food, shelter, and helping refugees when they cross the border.

At the same time, large NGOs have processes, overhead, and bureaucracy, which often result in delays of delivering goods inside Ukraine when and where they are needed most. We saw a unique opportunity and wanted to help!

Our goal is to coordinate volunteers from all over the United States and Ukraine to ensure a **targeted** delivery of critical goods to organizations in Ukraine—specifically addressing their unique needs.

How we are making this happen:

- We have built a full logistical chain that covers every step of the process from organizing supplies in California to delivery inside Ukraine.
- We rented a warehouse in San Jose (1191 N 5th St, 95112) to organize and store all supplies before they are shipped.
- We found a company that provides air freight shipments from Sacramento, CA to Lviv, Ukraine.
- We coordinated volunteers in Lviv to transport the supplies to the organizations that need them most.
- We have a growing list of over 60 organizations in Ukraine which we are calling directly, inquiring as to their specific needs.
- Our first shipment is going out on March 26th to Happiness for Children Foundation in Zhytomyr District (<https://shorturl.at/oAEU3>) and Regional Staffing and Social Support Center of Shevchenkivsky District in Kyiv (<https://shorturl.at/bhsuJ>)

How you can help:

We need financial support. Every little bit helps. Chartered flights start from as little as \$15,000 to ship 100 boxes to \$400,000 for 100-ton cargo capacity of Boeing 777. We also need supplies and volunteers.
